

TOP BENEFITS OF LINDSTRÖM UK PRINTER WIPERS

Using Lindström UK printer industrial wipers can benefit your employee and business in various ways:

High Absorbency

Made from 100% cotton. Reduce the risk of exposure to harmful chemicals

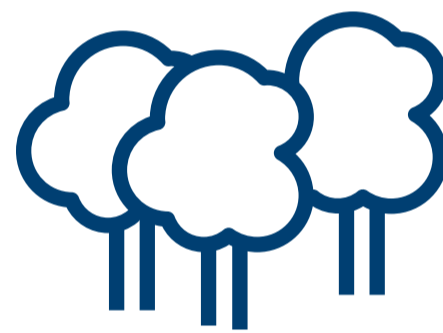

Save Money

1 wiper can clean the equivalent of 5-6 disposable towels and can withstand abrasion

Save Time

Prevent re-runs of jobs caused by dust or lint. Saving you both time and money

Environmental

Reusable industrial wipers generate less waste, making them more environmentally friendly

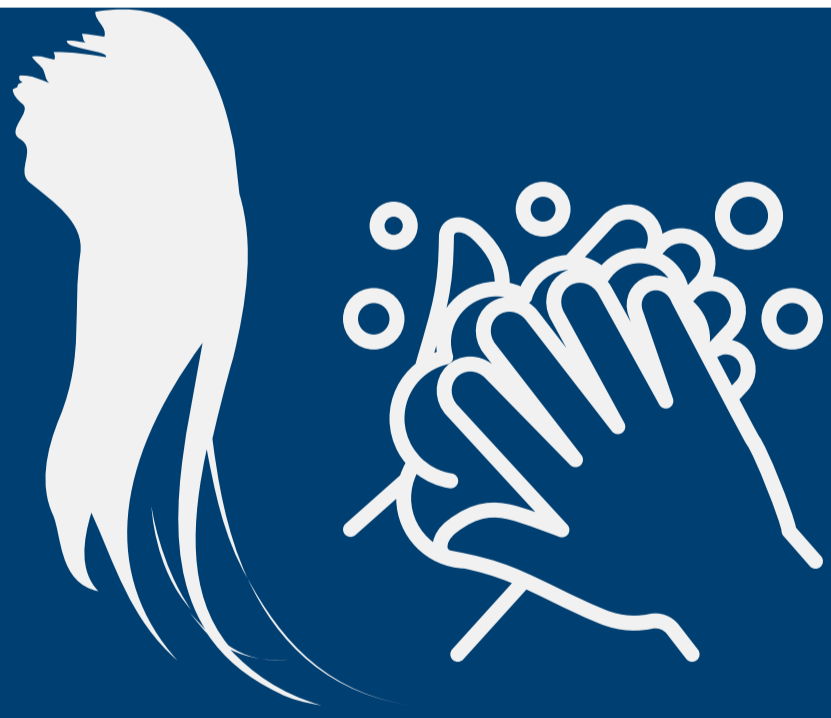

Hazardous Waste

We eliminate a potentially hazardous waste stream following the regulations

53% Savings

Save up to 53% on the cost of disposable towels and waste

Promote a safe working environment as well as complying to COSHH

Lindström UK can help your business reduce the risks that harmful chemicals can cause to employee health. When employees are cleaning the printing plates, machinery, toners, and chemicals they need high-quality, protective printer cleaning rags.

Our rental business is built on a circular economy model in its purest form. It's an alternative to disposable items, or owning textiles and washing them yourself. We strive to ensure each textile produced is reused, repaired, and recycled to avoid wasting natural resources. We have a passion for textiles, and for sustainable solutions that allow our customers to concentrate on their core expertise.
