

FoodInPro Collection

With our work wear service, you can be sure that your company work wear always meet the high standards and legal requirements set for food processing. Our work wear collection for food processing is especially designed to fulfill the criteria of the industry from design to maintenance and quality control.

Ensure that your employees always have enough hygienic work wear to protect themselves, the production, and your working environments.

We follow the EU standard EN-14065, which ensures the required hygiene level throughout the entire service process, from production to transport and delivery.

We offer several different fabric options for you to pick what is the most suitable for your work environment.

ProTwill is our most popular material with hundreds of thousands happy users.

Perfect for workwear!

*Correct
hygiene*
