Cares for your image

Who are Lindström?

Lindström is a leading European textile rental provider with operations in 24 countries across Europe & Asia.

It is our task to strengthen our customer's company image by means of Workwear and cleanliness.

Lindström has over 160 year's experience in the textile industry and has had operations in the UK since 2001 delivering to customers nationwide.

What is PacPro?

PacPro is a dedicated Workwear collection for the packaging industry.

When planning our collection for the packaging industry we have taken into consideration the needs of the industry.

- Appearance of employees
- Safety required
- Hygiene compliance
- Durability
- Image of company

Who's using PacPro?

Currently **PacPro** is being used in the production of:

- film
- paper
- cardboard
- corrugated board
- glass packaging
- flexible packaging
- rigid plastics
- light metal
- labels

Why choose Lindström?

Flexibility

Our customers can return up to 30% of their garments at no extra cost, provided that the garments can be forward leased.

If for whatever reason you need to return unnecessary garments, for example, an employee leaves or sizes need to be exchanged you can do so at no extra cost. The next invoice you will receive will reflect the changes in your requirements.

On average our customers in the packaging industry **save up to £12,000** over the term of the contract using this flexible feature of our service.

Short Lead Times

We guarantee to deliver **PacPro** garments to new starters within 2 weeks.

Our research has told us that new employees in the packaging industry feel more settled and engaged in their work when receiving their new uniform in a timely manner.

Currently **PacPro** garments for work when receiving their new uniform in a timely manner are being delivered to Lindstrom's packaging customers on average in 7 days.

This helps our customers reduce staff turnover and increase employee satisfaction.

Reliability

A reliable and consistent service will increase your productivity, boost employee morale and create a winning team atmosphere which in turn will save you time and money.

We have found that happier employees are more committed and loyal to their employer.

“Business owners have seen a decrease of up to 15 sick days per annum when staff are happy at work”.

Locker service as an additional value

Locker service guarantees that each worker has clean garments for his own size and for his duties in his own locker.

With our 5 or 10 compartment locker and personal keys users have easy access for their individual garments without confusion and garment losses. After changing clean garments users put garments for washing into the collector locker, from where our service representative collects them for maintenance. Locker service is an easy way to keep premises neat and clean.

Image

We have identified that Workwear will help your business project a consistent professional image and signals that you care about quality & service.

During external audits by both customers and prospects, our packaging customers have stated that using our service instils a sense of trust. Our customers have found that their products and services are perceived as being of greater quality due to the image of their employees' workwear.

Health & Safety

PacPro collection is manufactured to the highest quality to ensure that our customers are compliant with all health & safety regulations.

The products are light, functional, durable and maintained as part of the service throughout the lifecycle of the textile.

Resources

are dramatically reduced when using our service.

Processes are robust and have been designed to allow its packaging customers to focus on their core businesses.

“

With our previous Workwear & Laundry provider I was spending one day per week dealing with Workwear related issues. Since Lindstrom has taken over I now spend on average one hour per month”

Mel Baber, Amcor Flexibles

Environment

We care about its environmental impact and is accredited to ISO14001.

One kilo of textiles is transported on the average **193 m** between the laundry and customer

1,01 kWh/kg energy

6,7 litres of water

10,61 grams of detergent

“Up to 40% of consumers are unaware of the energy class and consumption of their washing machine. Through the use of new and improved technology, the industrial laundering industry continues to optimize its resource, energy consumption and reduces its CO2 emissions”
